

C'EST MAGNIFIQUE! THE STORY

In vaguely dark and surreal atmosphere, we meet Gregorio. His hump and huge coat speak for him, it seems that nothing goes the right way for him ... we see him choleric, rebellious, funny and very angry with the parrots of Mrs. Ida.

Ida is the undisputed leader of the strange circus where we are, even dominating Gregorio with the smallest nod. She is the only one that really feel comfortable on stage ... a cat and mouse balance, but still a balance, which is broken by the arrival of the new artist, Miss Molly. But who is She? And what can She do? And who will Gregorio be a fan of now?

Start all against all! Do not save bandages, plasters and slap to the wrist, everything seems to drift ... but such is life: C'est Magnifique!
